

Bellwork: Algebra 1

1. Write down your work for the week in your planner.
2. You will need your composition book.
3. Turn in your choice review packet stapled to the box
4. Go back to your salmon colored divider and put in an updated score.
5. Glue in this new divider and write in a rating of 1 - 4 for your initial score
6. Write in the MONDAY box of your bellwork sheet: On separate sheet of paper.
7. Answer all the questions on the warm-up sheet

Name:

Simplify.

1. $\frac{-3}{-6} = \frac{1}{2}$

2. $\frac{-8}{2} = -4$

3. $\frac{-12}{-9} = -\frac{4}{3}$

4. $\frac{0}{-7} = \emptyset$

Explain each relationship using a complete sentence.

5.

x	y
-1	-3
1	3
3	9

6.

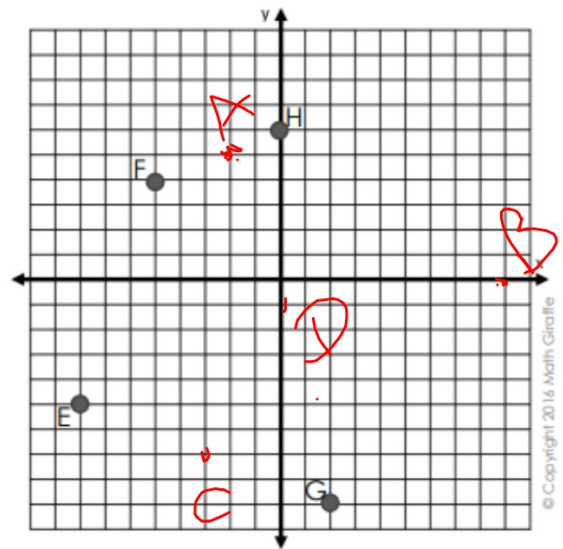

X	0	4	8	12
y	0	3	6	9

$y = 3x$

$x = \frac{1}{3}y$

$+4 + 4 + 4$
 $\frac{3}{4}x = y$

$\frac{3}{4} \cdot \frac{4}{1} = \frac{12}{4} = 3$

Plot each point on the coordinate plane:
A: (-2, 5) B: (9, 0) C: (-3, -7) D: (0, -1)

Write the coordinates for each point:
E: (-8, -5) F: (5, 4) G: (2, -9) H: (0, 6)
